

***FIRST LINE* PREMIUM TRACTOR FLUID**

“ The First Line of Defense Against Wear. ”

APPLICATIONS:

- Tractors and other equipment using a common fluid to lubricate the transmission, differential and hydraulic systems
- Caterpillar powershift transmissions requiring a TO-2 Fluid
- Mobile equipment using Sundstran hydrostatic transmissions
- Mobile and industrial systems operating over a wide temperature range
- First Line Premium Tractor Fluid is not recommended for Caterpillar TO-4 service

FEATURES & BENEFITS:

- Incorporates a friction modifier to ensure proper noise-free operation of wet brakes
- Excellent low temperature fluidity provides good response at low temperatures
- Field tests prove First Line Premium Tractor Fluid provides excellent service in virtually all makes of construction and farm tractors
- Is frequently used as a single fluid to prevent accidental contamination or misapplication, and to eliminate the need to purchase and keep in inventory several products for most farm and construction equipment.

RECOMMENDATIONS/APPROVALS:

John Deere J20C	Vickers 104C Pump
MF1143 and 1135	Sundstrand Pump (JDQ 84)
Ford M2C 134D, Ford M2C 159C	Allison C3, Allison C4
New Holland 420A	Caterpillar TO-2
Case MS 1207, Case MS 1206	Volvo BM
API GL-4	KUBOTA Universal Transdraulic Fluid (UTD)

Test	Typical Inspections
Viscosity, CST @ 40°C	62.7
Viscosity, CST @ 100°C	9.7
Viscosity Index , min	130
Flash Point, °F. (°C.), min	400 (204)
API Gravity, 15.6°C	27.5
Color, ASTM	L2.0

The values shown here are typical of current production. All of them may vary within modest ranges.

Hazards: “Empty” containers retain residue (liquid and/or vapor) and can be dangerous. Do not pressure, cut weld, braze, solder, drill, grind or expose such containers to heat, flame, sparks or other sources of ignition. “Empty” drums should be completely drained, properly bunged, and promptly returned to a drum reconditioner.

Avoid prolonged contact with skin and frequently change soiled clothing. In case of contact, wash thoroughly with soap and water for 15 minutes or until the irritation subsides. The formation of mists should be avoided. Do not take internally. If swallowed, do not induce vomiting. Call physician or Poison Control Center immediately. Keep out of reach of children.
